Wax-Free Toilet & Urinal Seals

- A strong, flexible adhesive creates a strong seal
- no more guessing if the seal is tight
- Toilet seals will work on raised floors, wood, tile, linoleum and carpet.
No need for flange risers or stacked wax rings.
- Urinal seals will seal to the inside diameter of the drain pipe,
forming a water tight, gas tight and odor tight seal.
- Made of flexible PVC and will move with the fixture.
- Will not absorb moisture, or break down over time, and is impervious
to mold and mildew.

#68691CS

Install faucets quicker and easier!

Faucet installations just got a whole lot easier! Sinchnuts are a new kind of nut. They're hinged, which allows you to wrap them around the faucet shanks at a higher position. It also allows you to connect the supply lines *before* you mount your faucet. No more crawling under the sink!
