Total Backflow Repair Kits

In Stock at Equiparts!

Equiparts is proud to stock a full line of "Total Repair Kits" for Backflow Prevention Assemblies. These total repair kits include everything necessary to completely repair the internals of the applicable assembly.

Some advantages of the total repair kits include:

- Guaranteed to have all necessary parts to completely repair the assembly. No trips back and forth to your parts distributor.
- Complete internal assembly repair, no callbacks to the site.
- Significant cost savings in comparison to buying the repair kits separately.
- Comes in a single convenient package with each internal clearly marked, greatly enhancing ease of use.

HEATING

WHAT IS A SOLENOID?

- Electrically operated flow control device
- Least expensive way to start or stop the flow of a gas or liquid
- Fastest way to start or stop flow of a gas or liquid
- Quick & easy in-line repair without breaking plumbing connections

HOW TO ORDER

Have the following information available before ordering:

1. Application

2. Valve Type

- 2-way Normally Closed (energize to open)
- 2-way Normally Open (energize to close)
- 3-way Normally Closed (inlet port to cylinder port when energized)
- 3-way Normally Open (cylinder port to exhaust port when energized)
- 3-way Universal, Diverting & Selecting

3. Size

4. Operating Pressure Differential

The difference in pressure between the inlet and outlet port MinOPD is the lowest pressure differential required to achieve full flow MaximumOPD is the highest pressure differential against which the valve will open.

5. Operating Temperature

- A combination of flow media and ambient temperatures
- Important in determining correct coil class, body material, and soft seals
- Media Temperature
 - Nitrile 180-200 F. Max
 - Viton 200-230 F. Max
 - EPR 295 F. Max
 - Teflon 366 F. Max
- Ambient Temperature (Coils)
 - "F" Class Standard
 - "H" Class for High Media/Ambient

6. Flow Media

- The gas or liquid being controlled by the valve, such as: Air, Gas, Water, Hot Water, Steam, Oil, Natural Gas, Chemical, or Vacuum

7. Power Requirements

Common AC voltages (60hz in US): 24vac, 120vac, 208vac, 480vac
Common DC voltages: 6vdc, 12vdc, 24vdc, 120vdc

1/2" NPT 2-WAY NORMALLY CLOSED BRASS SOLENOID VALVE 120V (Most Common)

- Powered by EZ gear technology, which uses a gear driven ceramic cartridge to provide uninterrupted hydropower
- Requires no hard wiring or battery replacement
- Sustainable, renewable power designed to last the life expectancy of a commercial restroom
- Diaphragm, gaskets, and seals are made of chemical-resistant thermoplastic elastomer, which lasts 10 times longer than traditional rubber
- Less susceptible to debris and buildup
- Outlasts and outperforms solenoids
- Lower installation and maintenance costs

These battery powered sensor faucets for retrofit and new construction incorporate an infrared convergence-type proximity sensor into the chrome plated cast brass spout. Furnished complete with sensor module, spout module, in-line filter, 4 AA batteries, a 1.5 GPM vandal resistant aerator and an inlet for a 1/2" ball riser supply hose. Sensor range is factory set for optimum performance.

ELKAY UNITS

ELKAY

ENHANCED CONNECTED EZH20® BOTTLE FILLING STATION & SINGLE ADA COOLER

#85468 (LZS8WSSP-W1)
FILTERED

\$1902.99 ea

This enhanced unit allows facility managers to track water usage and filter status by using the plumbSMART software.

- Monitor stats on all of the connected units in your building or across a campus
- Schedule flushing events to keep lines clean and help prevent waterborne illnesses
- Quick filter change wrapper enables filter changes in less than a minute!
- LED filter status indicator shows when filter needs changed.
- Elkay's 6,000-gallon filter is certified to NSF 42 and 53 to reduce lead, Class 1 particulates and chlorine taste and odor.
- FillSafe™ recognition recognizes new filter and updates LED light back to green
- Low-energy LED light illuminates in dark hallways
- Fill rate is 1.1 GPM with Laminar flow
- Green Ticker shows the number of 20oz. plastic water bottles saved from waste
